Need Help Managing Health and Safety?

Following successes in running IOSH Approved safety training courses at various client locations we are planning to run an IOSH Managing Safely open course at our offices in Bradford in April 2013.

This course is approved by the Institute of Occupational Safety and Health (IOSH). It is a highly regarded level of accreditation and widely recognised.

Managing Safely is a course for managers and supervisors in any sector and any organisation. It is designed to give managers all they need to know to help them handle health and safety in their teams. The flexible high impact programme covers all the main health and safety issues, and also includes a session tackling the environment.

It is highly interactive, keeping delegates fully involved at every stage of the course. The presentation uses exclusive animation, an in-depth workbook and quizzes/ board games.

At the conclusion of the course delegates are required to undertake a multi-format assessment. Delegates must also complete a project and return it to the tutor within 14 days of the course completion date.

Successful candidates will receive an **IOSH Managing Safely Certificate**.

Course Tutor: Graham Murphy AIEMA, AIIRSM Health & Safety Consultant

Booking Information

For further information on this course or any health and safety issue, please contact Jaki Ainsworth on 01274 465586 or email: healthandsafety@tldallas.com and she will arrange for one of our health and safety consultants to contact you.
